

	Effort and Perseverance	Composition: Use of Elements & Principles	Craftsmanship/Hand Building Technique: Used appropriate tools and materials professionally. Shows pride in work. Used at least (2) connection techniques.	Conceptualization/Exploration: Completed exercises before beginning final project: Thumbnail sketches and large sketches and participated in wire demo day.
25	Uses class time appropriately. Assignment turned in on time. Effort beyond requirement. Persevered when faced with an unforeseen challenge or problem.	There is a strong understanding of creating a dynamic composition. Demonstrates comprehensive understanding of form. Artist created an abstract form that successfully exploited line, which embodies your personal spirit.	Skill/Master in manipulation of media. Clean/neat product. Your project demonstrates exceptional overall vision and composition, understanding of line and form and a successful Construction. Techniques and tools, and professionalism/care to final product are exceptional. Used at least 2 connection techniques.	Thumbnail sketches show exploration of utilizing form and line to create an abstract sculpture. Took notes on final sketches concerning course of action for the construction of the vessel. Participated in demo day, demonstrated connection techniques.
20	Uses class time appropriately, most of the time. Assignments turned in on time. Could be improved with more effort. Persevered through challenges and problems when prompted and encouraged.	There is a good understanding of creating dynamic compositions. Demonstrates understanding of form. Artist created a form that used line to describe your spirit.	Proficiency in manipulation of media. Shows hard work. Your final product demonstrates good understanding of line and form and construction. Skills, techniques, tools, and overall care to final product. Used at least 2 connection techniques.	Thumbnail sketches show attempt to explore utilizing form and line to create an abstract sculpture. Took a few notes on ideas for how sculpture would be constructed. Participated in demo day, demonstrated all connection techniques.
15	Uses class time appropriately some of the time. Assignment turned in. Room for improvement with more effort. Needed to be walked through every problem and shortcoming.	Composition needs further development. Lacks connection between using line to abstractly represent your spirit.	Room to improve on skill and manipulation of media. Lacks some finishing touches. Your final product demonstrates some understanding of construction techniques, proper use of tools and materials. Lacks final details. Use only 1 connection technique.	Thumbnail sketches show no attempt to explore utilizing form and line to create an abstract sculpture. Did not take sufficient notes on how sculpture would be constructed. Did not participate in demo day and/or did not demonstrated connection techniques.
10	Does not use class time appropriately. Assignment turned in unfinished or late. Completed task with minimal or no effort. Gave up at the first sign of struggle.	Composition feels rushed or undeveloped. Lacking a clear direction and form. Did not use line to abstractly represent your spirit.	Practice is needed to improve on skill in manipulation of media. Lack of pride in end product. Product shows limited understanding of concepts, techniques, and use of tools/materials. Used only connection technique.	Did not complete thumbnail sketches or turned in after you had started your final project. Did not take notes on how sculpture would be constructed. Did not participate in demo day. Did not demonstrate all connection techniques.

<p>Self-Assess in space provided, for each criteria. Give yourself a score and defend that score with Evidence from your project. (10pts each).</p> <p>(Turning in rubric along with uploading 3 high quality images of your work is 10 pts)</p> <p>___/10</p>	<p>Explain how you rated your effort.</p> <p>___/10</p>	<p>Describe how the elements were used and what principles were achieved.</p> <p>___/10</p>	<p>Explain how your craftsmanship shows your professionalism and technical skill when working with this medium.</p> <p>___/10</p>	<p>Defend how you rated your conceptualization of the project (thumbnail and final sketches) and exploration of medium (demo day, demonstrating connection techniques, taking notes on planned construction of sculpture).</p> <p>___/10</p>
